We engaged Yousuf to provide MS Excel training to our employees and I just joined the call to check the effectiveness. Literally I spent more than an hour in the virtual class and glued his training skills. Such an amazing trainer who is very humble and natural in teaching the subject. He has his own style of engaging participants in the class and very tough to deviate your attention. Looking at his skillset and subject knowledge, immediately we extended his schedule to provide training for one more batch and he did fantastic work. Really superb trainer who can teach excel in an excellent way!!!
