

Abhimanyu Bhardwaj

Since 2013,
Abhimanyu has been helping companies
build path-breaking offerings and create
a culture of innovation excellence.

This is what he does

Abhimanyu Bhardwaj is an innovator on a mission to improve the lives of people living in India.

He truly believes that India has the potential to impact the world.

Therefore he strives to inspire and mentors changemakers across the country and the world.

He is an entrepreneur with a background in **innovation, marketing, product development and GTM.**

He has lived in two continents and co-founded two companies - 21ID, an innovation consulting firm for startups and corporations and Launchspace, an organization that future-proofs individuals and companies with Innovation.

Through Launchspace, Abhimanyu has created a large scale impact on entrepreneurship learning across institutions in the south of India,

impacting over 2300 students and 100s of faculty members.

Abhimanyu is also a **Mentor of Change at Niti Aayog's Atal Innovation Mission**, where he guides schools on including innovation in their curriculum.

He mentors early stage entrepreneurs on creating business plans and raising capital.

He is a partner on the EU India Innocenter project, where he is helping **European startups set up operations and scale in India.**

In addition to that, Abhimanyu is a speaker in different events, a facilitator in Marketing, Branding and Innovation projects, and a mentor for accelerator programs.

He has facilitated over 150 hours of training and workshops on **Entrepreneurship, Innovation and Design Thinking.**
